

Environmental Policy

STRACON is committed to responsible management and continual improvement in environmental performance and will conduct its business accordingly.

To deliver on our commitment, we will:

- Communicate STRACON's Environmental Policy and procedures to all employees, clients, subcontractors, consultants and suppliers;
- Ensure that appropriate management plans are developed and adhered to across all STRACON operations;
- Comply with all applicable environmental laws, regulations and statutory obligations;
- Allocate responsibilities and adequate resources to develop and implement appropriate environmental management systems and procedures across our business;
- Provide training and information to our employees and subcontractors to improve awareness and knowledge of environmental issues;
- Minimize adverse environmental effects and risks that may be associated with our services;
- Reduce waste and apply recycling principles to all business operations as far as reasonably practicable, and;
- Annually review and revise our Environmental Policy and procedures.

It is the responsibility of all personnel to implement this policy.
